Degree program, year 2 2026/2027
University of Bamenda, Coltech

EXPERIENCE

Mobile App Development Intern 30 th of June 2026 - 39 th of August 2026
Skye8

- Developed mobile application projects using Flutter and Dart.
- Worked with Firebase to integrate backend services into mobile applications.
- Built a Medium clone and contributed to projects including Soul-Noir and Njangi-Pay.
- Collaborated on software development tasks and strengthened practical problem-solving skills.

PROJECTS

1. USSD Fire Alert

Co-developed a USSD-based fire emergency reporting solution designed to help users report fire incidents. The project secured second place at the COLTECH Hackathon.
Type:Prototype

2. Njangi-Pay

Developed a prototype digital platform designed to improve transparency and record-keeping in traditional Njangi savings groups.
Type:Prototype

3. Soul-Noir

Worked on a Flutter and Firebase-based e-commerce mobile application as part of my software development practice.
Type:Prototype
